

Naples Botanical Garden

Position Title: Horticulture Internship

Department: Horticulture

Reports to: Associate Director of Horticulture

Organizational Description

Naples Botanical Garden is a 170-acre world-class paradise, featuring the flora and cultures of the tropics and sub-tropics between the latitudes of 26 degrees north and 26 degrees south, including Brazil, the Caribbean, Southeast Asia, and Florida. The Garden's mission is to connect people and plants through display, education, conservation, and science. The Garden's hands-on interactive Smith Children's Garden, along with 90 acres of beautifully restored native habitats, formal Gardens, walking trails and public programming offer education and enjoyment for people of all ages. Naples Botanical Garden is a 501(c)3 organization.

Position Summary

Naples Botanical Garden is seeking a motivated intern to assist with all aspects of horticultural activities. Depending on the candidate and the department's needs, the majority of the work may be focused on a single aspect, such as soil science, integrated pest management, aquatic plant management or plant records. The position is a paid full-time temporary internship.

Primary Duties and Responsibilities

- General care and maintenance of plant collections, including but not limited to pruning, weeding, mowing, planting, propagating, irrigating, aquatic plant management and plant record keeping
- Assist staff in identifying and researching solutions to horticulture problems as they occur, including diagnosing and treating soil, nutrient, disease and pest problems

Additional Responsibilities

- Participate in Garden-wide events, exhibitions and projects as required or needed
- Performs other duties as assigned and required

Key Competencies:

- Very good verbal and written communication skills; listens and gets clarification; responds well to questions
- Attendance/Punctuality - consistently at work and on time; ensures work responsibilities are covered when absent
- Dependability - follows instructions, responds to management direction; takes responsibility for own actions; keeps commitments; completes tasks on time or notifies appropriate supervisors
- Ability to function effectively as a member of a team that includes staff members and volunteers, as well as work independently to see projects through to completion
- Be highly motivated and organized with a strong work ethic and attention to detail

Qualifications

- Be pursuing a degree in environmental education, horticulture, botany or have an equivalent level of education and experience
- Be willing and able to work full days outdoors in a hot and humid environment, able to lift and carry at least 35 pounds
- Possess experience working with plants
- Possess a working knowledge of MS Office software
- Background check required.
